Indicative C4ISR and Cyber Training Catalogue Price List

This document lists indicative prices for courses in the 2020 C4ISR and Cyber Training Catalogue. These prices are provided for budgeting purposes. Final prices to be used for price proposals and invoices will be published later in 2019 after formal approval.

In case a course is required which is not included in the price list, or no price is displayed, please contact training@ncia.nato.int for further inquiries.

The prices for Mobile Training Teams are for delivery in Europe. For delivery outside Europe, a surcharge applies to cover the additional travel time and costs. Please note that Mobile Training Teams are for a minimum course duration of three days. In case a shorter course is required, multiple courses or course iterations may be combined into a total duration of three days or longer. A custom price will be calculated for these cases upon request.
